

BOATBUILDING

SCHOOL OF CONSTRUCTION INDUSTRIES

VICTORIA UNIVERSITY

The School of Construction Industries at Victoria University (www.vu.edu.au) conducts a wide range of courses in building and construction occupations from pre-employment and apprenticeship programs through to the para-professional skill development. Courses offered include boatbuilding, as well as building design and construction, bricklaying, cabinet and furniture making, plumbing and gas fitting, painting.

Our Boatbuilding courses include:

Certificate II in Engineering - Production [Boatbuilding Pre-Apprenticeship]

Certificate III in Marine Craft Construction
